The proposed dates and times are Friday, April 17th from 9:00 a.m. to 4:00 p.m. and Saturday, April 18th from 8:00 a.m. to 2:00 p.m. Service will close promptly at the designated end times; therefore, it is critical that residents are aware they must be through the line by

A map was provided, and details were discussed regarding acceptable drop-off items, as well as designated staging, parking, and waiting areas. Additional discussion will take place with Jim Lower to determine how best to accommodate and manage traffic flow during the event's operating hours. - d. **Berger Property Purchase:** The board discussed a potential purchase of land owned by Nancy Burgerer, located behind Greenwood Cemetery, for cemetery expansion. The property is approximately three-quarters of an acre, fully wooded, and offered to the township at its current market value. While the land could support future burial needs, the board noted timing concerns related to budgeting and uncertainty around future cityhood. Since there is no urgency from the seller, the board agreed to express interest but defer any decision until the upcoming budget review.
- e. **Township Official's Conduct:** Jim Lower, Sparta Village Manager, appeared before the board to address concerns regarding the distribution of information and communications related to Village projects, funding, and governance. He provided context on recent meetings, shared documentation and security footage, and highlighted instances of potentially misleading information being shared publicly and privately. The discussion included clarification of property ownership, grant funding, and Village decision-making processes, as well as observations of broader patterns of behavior affecting Village -Township relations.

The board listened to the concerns presented and acknowledged the points raised. They agreed to take the matter into consideration and to explore the

potential development of formal codes of conduct or policies governing the behavior of board members and staff.

**OTHER INFORMATION: None.**

**PUBLIC COMMENT:**

- Jackie Landon, a new Sparta Township resident at 3957 15 Mile Road and co-owner of Native Edge, a landscape and environmental firm, addressed the board regarding concerns about data centers. Drawing on her background in aquatic biology, she highlighted potential negative impacts of data centers, including high water and energy usage, limited long-term job creation, and risks to local water quality and public health. She cited examples from other communities to illustrate these concerns, including contamination risks and strain on aquifers.

Ms. Landon suggested that the township proactively seeks expert guidance and consider measures such as a temporary moratorium on data center approvals to allow time for community discussion and planning. She offered resources from nonprofit organizations and other townships as examples of approaches that could help Sparta manage potential environmental and resource impacts. She encouraged ongoing engagement and careful consideration before data centers are introduced to the area.

**ADJOURNMENT:** Motion to adjourn at 7:46pm EST by Marcy Savage with a second by Barb Johnson. The motion passed unanimously, with all members in favor.
